

## Make the most of your campaign

Here are some tips to help make your fundraising campaign with Express a success:

### Pre-Print Your Labels

You can pre-print bag labels to give out to your donors. Ask the staff at any Express depot to print off a number of labels in bulk from your account.

### Know Your Express Locations

We're opening lots of new Express locations in the Lower Mainland this year. Find the depots in your area at [return-it.ca/locations/express](http://return-it.ca/locations/express)

### Share Your Campaign

Tag us on Twitter @Return\_It or on Facebook @EncorpPacific and we'll help spread the word about your fundraising.

## RAISE MONEY WITH EXPRESS

### Bottle drives made easy

## Express takes the work out of fundraising.

Return-It Express makes it easy for people to contribute to your organization's bottle drive. They simply bring their refundable drink containers to an Express location and return them tagged with your account number. We'll sort and count the containers and credit the refunds to your Express account within 10 business days.

You can then transfer the money instantly into your organization's bank account using Interac e-Transfer. It means less door-to-door collection and sorting work for you and you can extend your fundraising campaign throughout the year.

### How fundraising with Express works:

Sign up for a free Express account for your organization at [return-it.ca/express](https://return-it.ca/express)

Share your Express account number within your community – a phone number or any memorable 10-digit number is valid.

Your supporters bring unsorted containers in transparent or clear plastic bags to an Express location.

They log in at the Express Kiosk using your account number.

They print off tags, tag each of the bags and leave them with us.

We'll sort their containers and credit your Express account.
