

Return-It for Recycling at the the Hazeltons, Kitwanga & Kispiox Drop-off Event

Burnaby, BC, August 31, 2011 – On Saturday, September 10, 2011, bring your unwanted electronics to the Hazelton Area Visitor Information Centre in New Hazelton for free recycling. This special event is available for residents and businesses to drop-off acceptable unwanted electronics at a convenient site within their community, and be assured they will be recycled responsibly.

Event details follow:

Hazelton Area Visitor Information Centre

4070 - 9th Avenue, New Hazelton

Saturday, September 10, 2011

10:00AM - 3:00PM

This special drop-off event is being coordinated by the Kitimat-Stikine Regional District and is part of the Province-wide Return-It™ Electronics program. A government approved program which aims to divert electronics from landfills, and keep them from being shipped to developing nations where they could be processed in an unsafe manner.

"We have collected over 50 million kgs so far since the program's inception. This event will build on that success and help ensure that returned end-of-life electronics are recycled responsibly."
Craig Wisehart, Program Director, Electronic Stewardship Association of BC (ESABC)

A complete list of acceptable electronics is available at www.return-it.ca/electronics/acceptable and includes such items as televisions, desktop printers and fax machines, non-cellular telephones & answering machines, desktop & notebook computers, computer monitors and computer accessories such as mice, keyboards and cables, as well as home, personal & vehicle audio/video equipment. Due to hazardous material regulations, computer monitors or televisions with shattered glass screens cannot be accepted.

The Return-It™ Electronics program is designed to manage unwanted electronic products that have exhausted their reuse potential. Before recycling, consumers are encouraged to first consider reuse or donation options.

For a complete list of permanent collection sites, visit www.return-it.ca/electronics/locations.

The program is being conducted by Electronics Stewardship Association of BC (ESABC), an industry led, not-for-profit stewardship agency and is being managed and administered by Encorp Pacific (Canada), a federally incorporated not-for-profit product stewardship corporation. Further information is available at www.return-it.ca/electronics.
